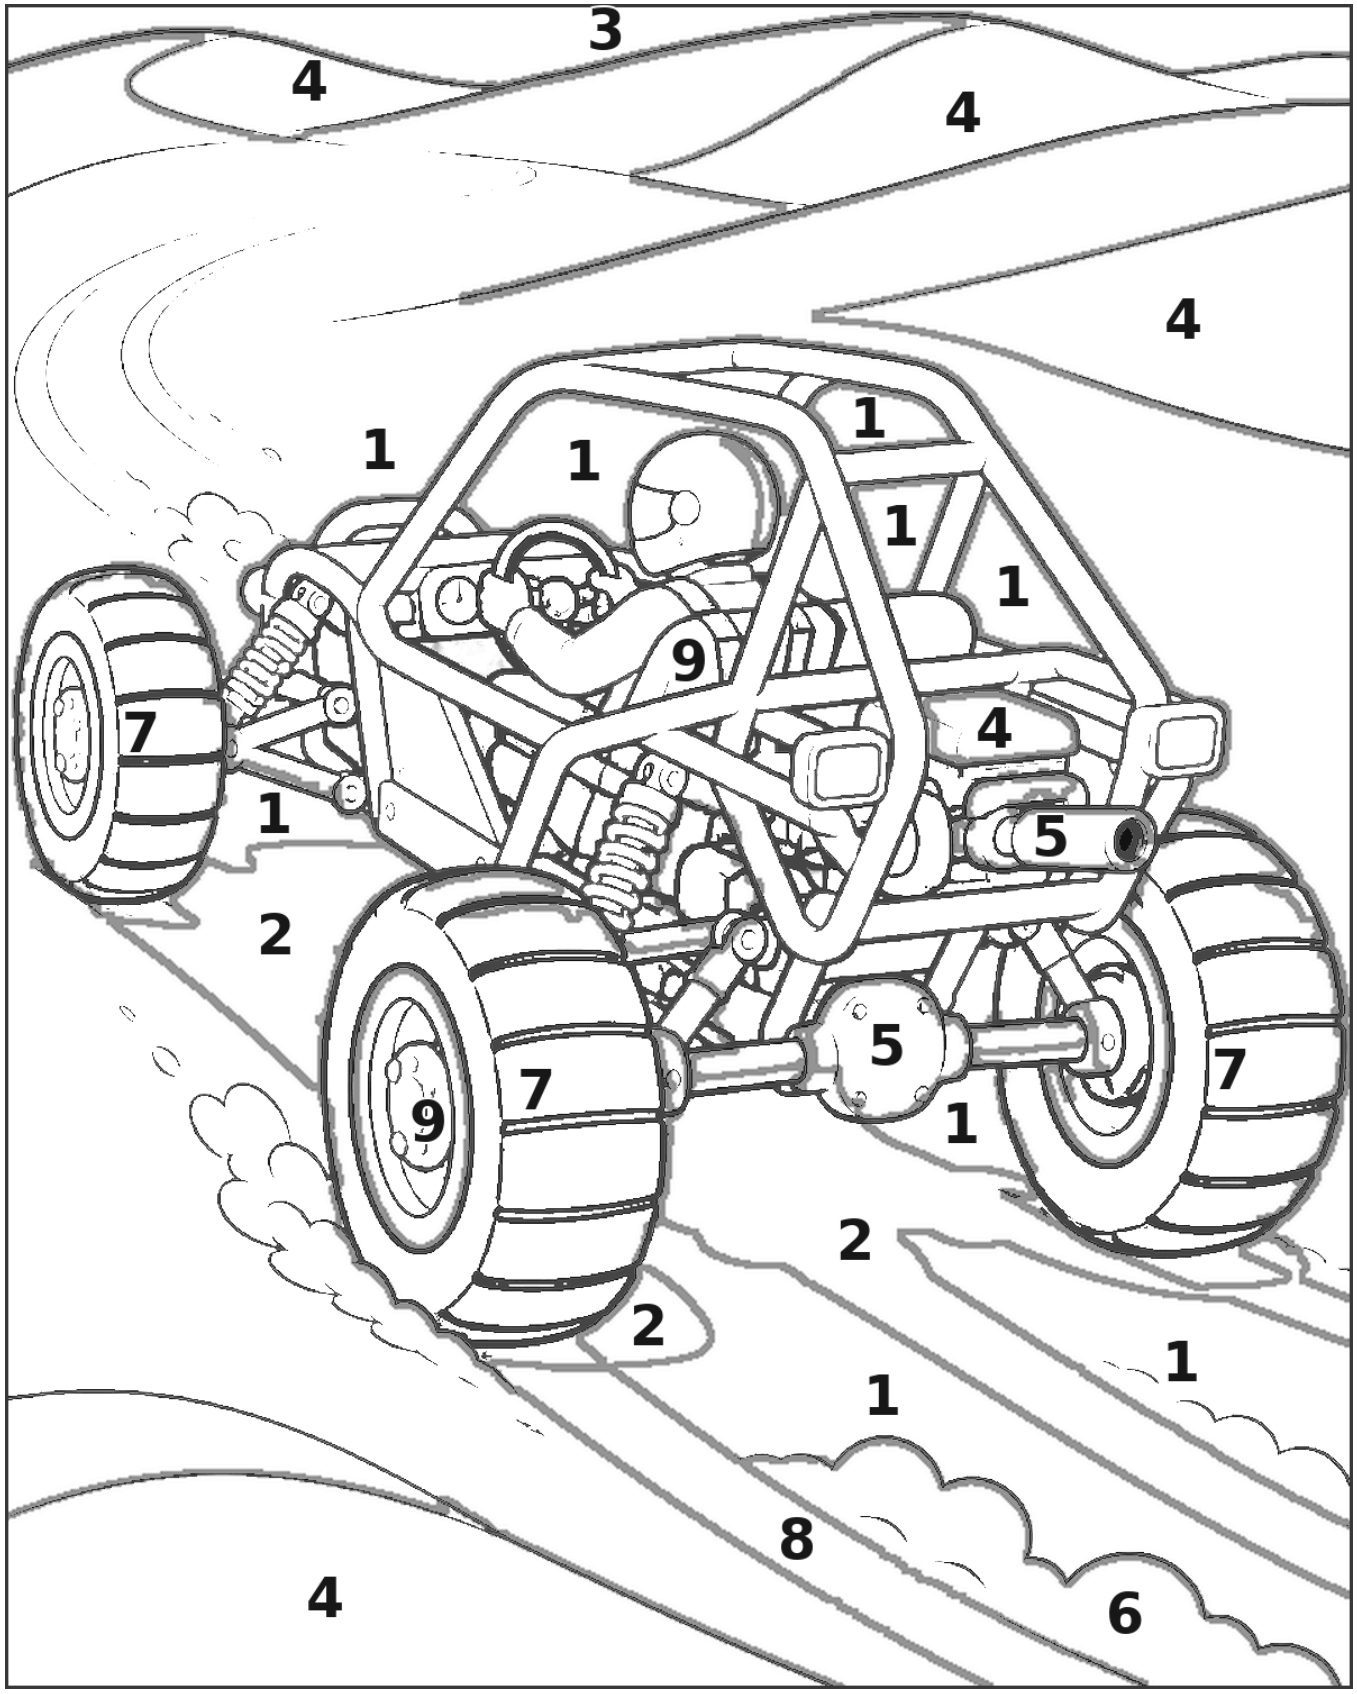
Dune Buggy

What are the scoops on some sand tires for?



1 Gold	**2 Plum**	**3 Sky**
4 Honey	**5 Stone**	**6 Butter**
7 Charcoal	**8 Berry**	**9 Rust**

Did you know? Raised paddles on a sand tire push against loose sand as the wheel turns. That can give the vehicle a better push on a soft surface. From the side you can see how the big tire shapes meet the dune.
