Parcel Van

How does a parcel get a tracking update?

1 Dusk
2 Sky
3 Pearl
4 Moss
5 Lilac
6 Copper
7 Gold
8 Chestnut
9 Teal

Did you know? A parcel has a label with a code that identifies it. When the carrier scans the label at a stop along the way, the tracking system can report a new step in its trip. A delivery scan can show when it reaches its destination.
