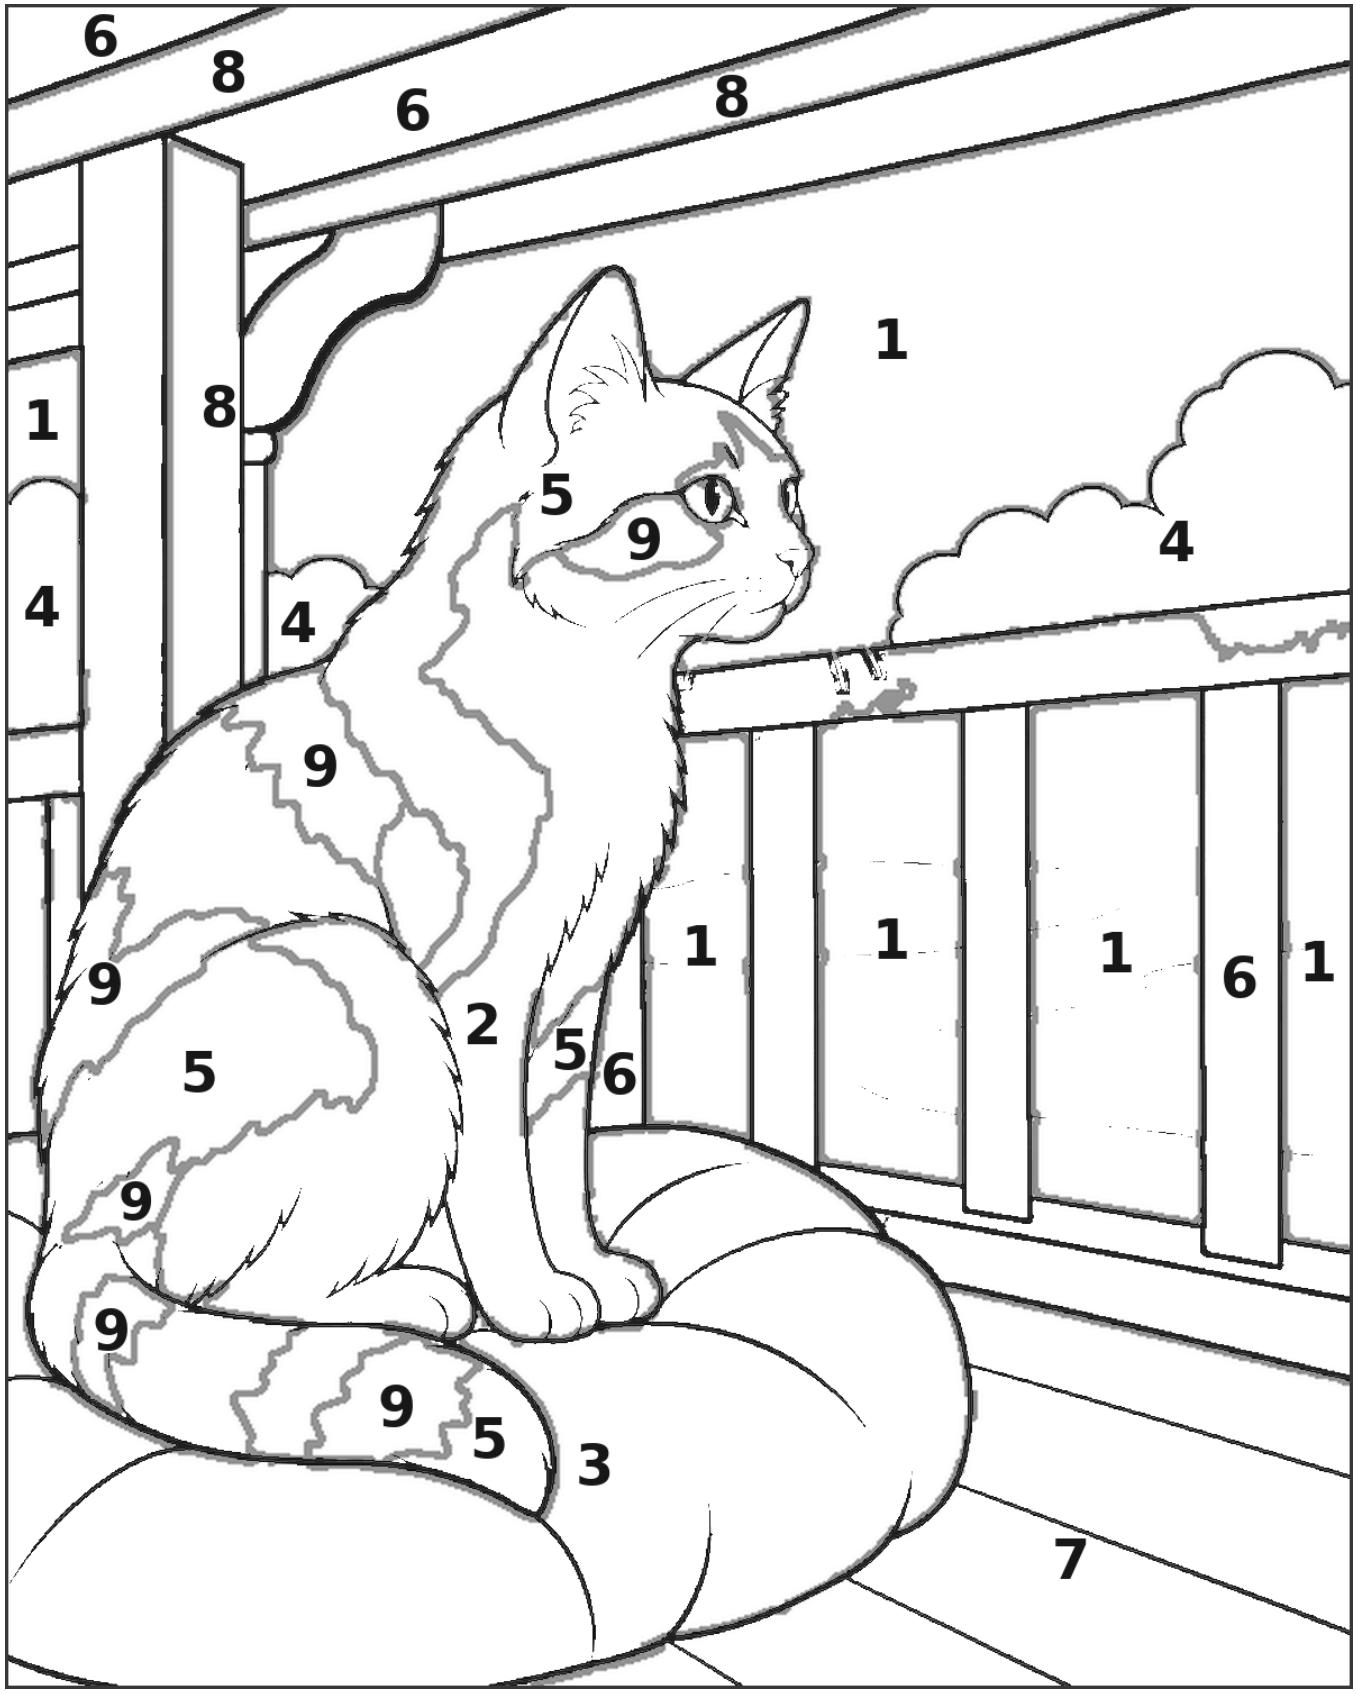
Cat on a Rainy Day

Why does a cat look for shelter in the rain?



1 Slate
2 Cream
3 Mauve
4 Olive
5 Cocoa
6 Ink blue
7 Honey
8 Teal
9 Copper

Did you know? A dry coat helps hold in body heat. Wet fur makes it harder for a cat to stay warm, especially in cool weather. A covered spot gives the cat a chance to stay dry while it waits for the rain to pass.
