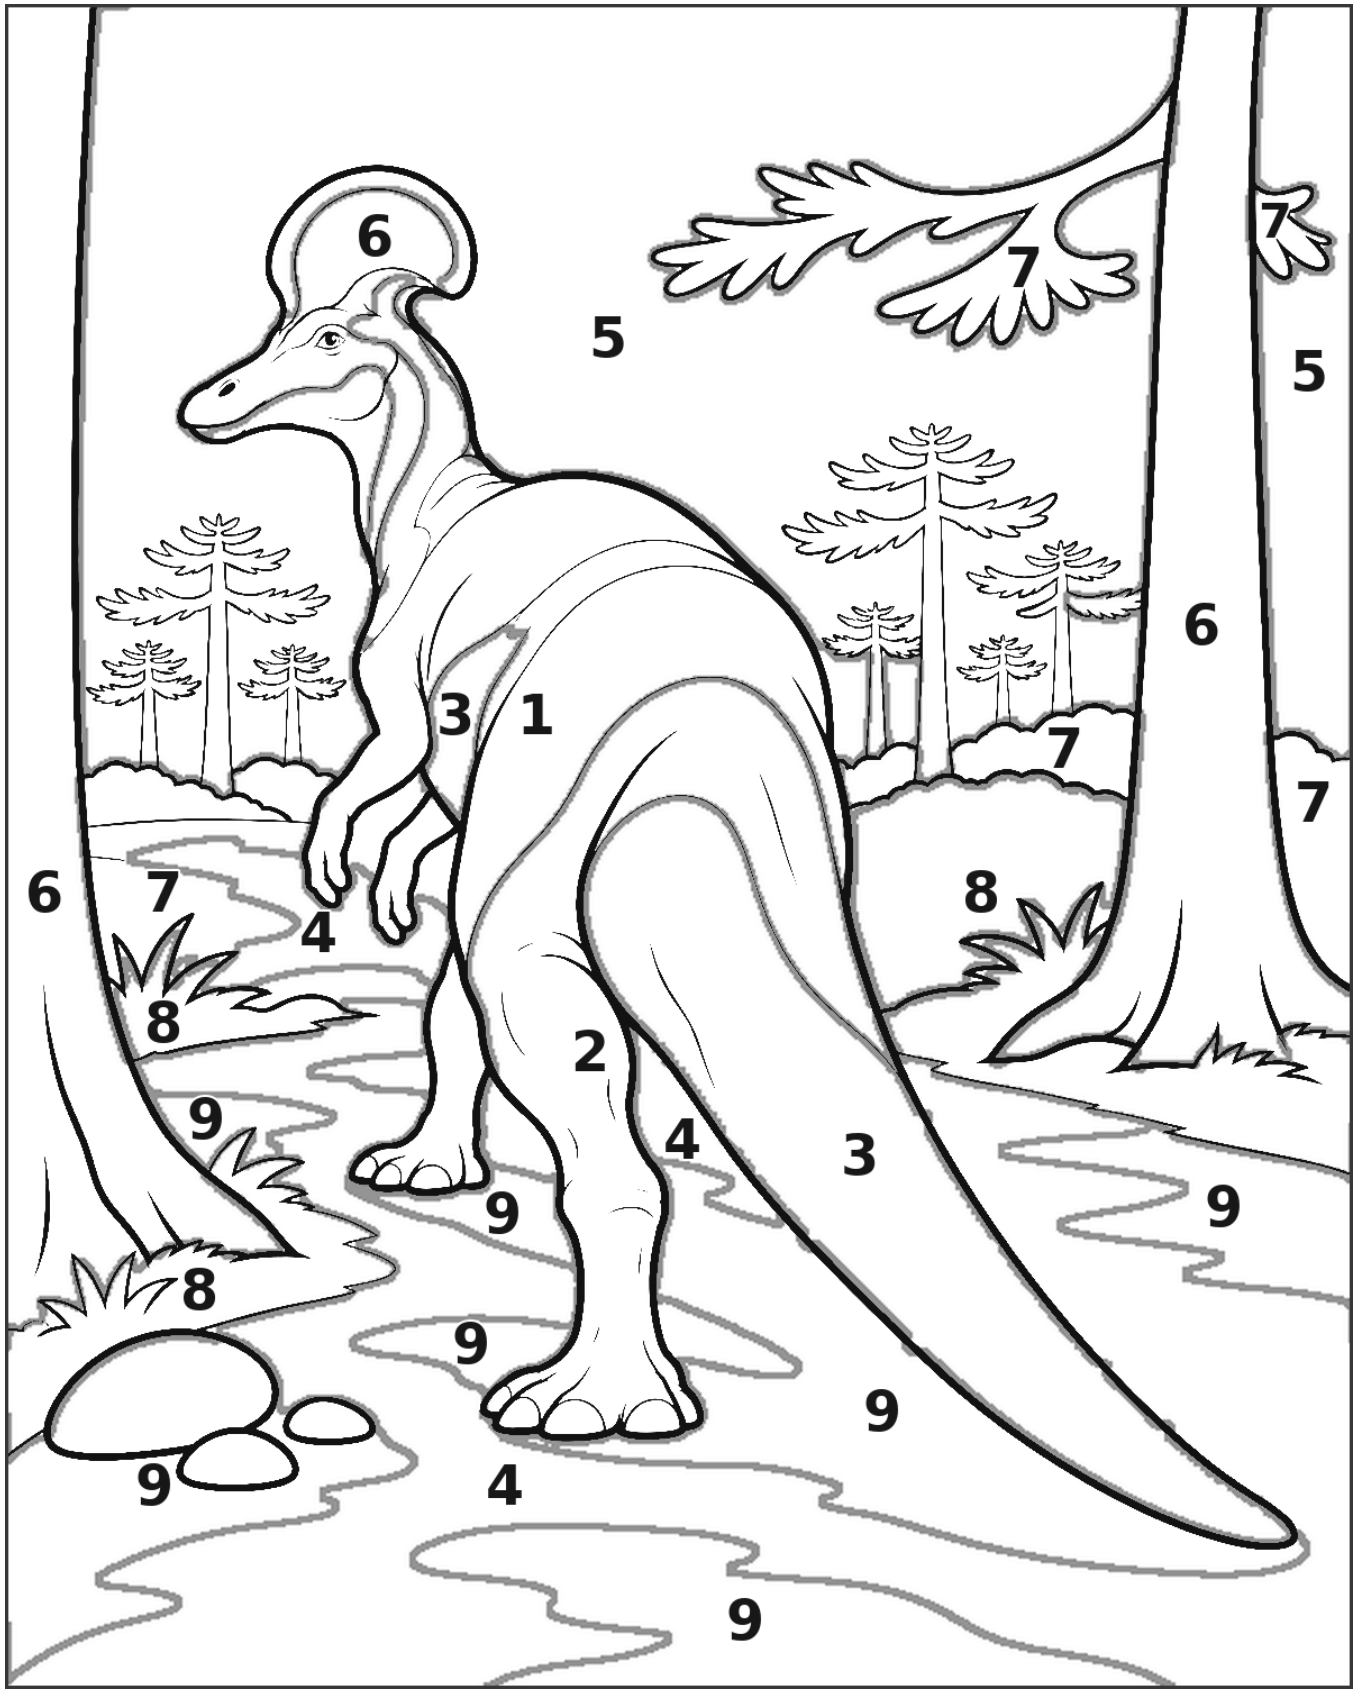
Corythosaurus

What was hidden inside the helmet-shaped crest?



1 Indigo plum
2 Violet
3 Lilac
4 Straw gold
5 Cream sky
6 Cinnamon
7 Pine green
8 Moss
9 Blue slate

Did you know? The rounded crest contained winding passages connected to the nose. Air could travel through those passages. The exterior gives Corythosaurus its helmet-like profile, while the hidden tubes give scientists a clue to what the crest might have done.
