Shoebill

Why does a shoebill stand so still?

1 Teal	**2 Butter**	**3 Pine**
4 Sage	**5 Sky**	**6 Mauve**
7 Cocoa	**8 Moss**	**9 Lagoon**

Did you know? A shoebill waits quietly in marshes until it spots a fish. Then it lunges forward and brings down its broad bill in a quick strike. The waiting is part of the hunt.
