# Husky and Sled

How does a sled dog pull without a strap on its neck?

**1** Lilac
**2** Lagoon
**3** Parchment
**4** Plum
**5** Sky
**6** Dusk

**Did you know?** A harness spreads the pull across the dog's chest and body. A line connects the harness to the sled or to the team's main line. Look for the way the line leads away behind this husky.
